

## Flammable Storage Cabinet

Flammable storage cabinet is constructed of 1" thick, high density, 9-ply plywood, meets or exceeds standards set by OSHA and NFPA, and is finished inside and out with bright, safety-yellow, epoxy paint. Doors have two highly visible red safety decals. Two adjustable shelves provide an approximate capacity of 45 gallons, and the floor is constructed to act as a liquid tight trough to retain spillage. All hardware is corrosive resistant; unit is equipped with locking handle and two keys.

## Flammable Storage Cabinet

Flammable storage cabinet is constructed of 1" thick, high density, 9-ply plywood, meets or exceeds standards set by OSHA and NFPA, and is finished inside and out with bright, safety-yellow, epoxy paint. Doors have two highly visible red safety decals. One adjustable shelf provides an approximate capacity of 18 gallons, and the floor is constructed to act as a liquid tight trough to retain spillage. All hardware is corrosive resistant; unit is equipped with locking handle and two keys.

**Note!**

Before purchasing any chemical storage cabinet, familiarize yourself with all local and state codes from the appropriate agencies having jurisdiction in your area.

## Flammable Storage, Undercounter Cabinet

Capacity: 22 gallons.

This unit is designed to fit under existing countertops, in casework assemblies, or to be used as a stand alone unit. Constructed of 1" thick plywood finished in bright yellow epoxy, corrosive resistant paint, and featuring two large red "FLAMMABLE" decals on door fronts. Cabinet is constructed to meet or exceed all applicable OSHA and NFPA standards. This unit is equipped with a continuous metal hinge, metal locking assembly, and one adjustable shelf with metal shelf brackets. *Note: For flammable storage under fume hood, see 18" D units: #8632, or #8636.*

## Flammable Storage, Undercounter Cabinet

Same as 8630, except 18"d, and capacity changes to 15 gallons. *\*This unit can be used under fume hoods.*

## Flammable Storage, Undercounter Cabinet

Same as 8630, except 47" w x 22" d, and capacity changes to 36 gallons.

## Flammable Storage, Undercounter Cabinet

Same as 8630, except 47" w x 18" d, and capacity changes to 29 gallons. *\*This unit can be used under fume hoods.*

## Acid Storage, Undercounter Cabinet

Capacity: 22 gallons.

This unit is designed to fit under existing countertops, in casework assemblies, or to be used as a stand alone unit. Constructed of 1" thick plywood finished in OSHA blue epoxy, corrosive resistant paint, and featuring a large "ACID" decal on front in red letters. Cabinet is constructed to meet or exceed OSHA requirement for secondary containment. To eliminate hinge deterioration common in most acid storage cabinets, this unit is equipped with an all wooden hinge. Fixed shelf and floor are lined with polypropylene. Fixed shelf will accommodate 2.5 liter bottles. Lower shelf holds 500ml. bottles, only.

## Acid Storage, Undercounter Cabinet

Same as 8616, except 18"d, and capacity changes to 13 gallons.

## Acid Storage, Undercounter Cabinet

Same as 8616, except 47" w x 22" d, and capacity changes to 34 gallons.

## Acid Storage, Undercounter Cabinet

Same as 8616, except 47" w x 18" d, and capacity changes to 27 gallons.

**1264 Four Drawer, Base Cabinet**  
Overall: 35 1/4" h x 18" w x 22 1/2" d

Unit equipped with four drawers, each is 14 1/2" w x 17" d. Drawer box height is 6". Top material is 1" Epoxy Resin or Phenolic and must be calculated for entire casework assembly which includes this unit. Specify material, provide submittal drawing to illustrate unit placement in casework assembly, and total top material requirement for the assembly.

**1284 One Drawer, One Door**  
Overall: 35 1/4" h x 18" w x 22 1/2" d

Unit equipped with one drawer, 14 1/2" w x 17" d. Drawer box height is 6". Cupboard is equipped with one adjustable shelf. Top material is 1" Epoxy Resin or Phenolic and must be calculated for the entire casework assembly which includes this unit. Specify material, provide submittal drawing to illustrate unit placement in casework assembly, and total top material requirement for the assembly.

**1574 Two Drawer, Two Door**  
Overall: 35 1/4" h x 35 1/4" w x 22 1/2" d

Unit equipped with two drawers, each is 14 1/2" w x 17" d. Drawer box height is 6". Cupboard is equipped with two doors and one adjustable shelf. Top material is 1" Epoxy Resin or Phenolic and must be calculated for the entire casework assembly which includes this unit. Specify material, provide submittal drawing to illustrate unit placement in casework assembly, and total top material requirement for the assembly.

**2358 Sink Cupboard unit**  
Overall: 35 1/4" h x 35 1/4" w x 22 1/2" d

Top material is 1" Epoxy Resin or Phenolic and must be calculated for entire casework assembly which includes this unit. Specify material, provide submittal drawing to illustrate unit placement in casework assembly, and total top material requirement for the assembly.

**8815 ADA Accessible Rinse Sink with Counter**  
Overall: 41" h x 80" w x 24" d

Unit is designed to include provisions for wheelchair space at sink and services. Rinse counter provides a long sloped counter, integral sink, continuous raised edges and cover corners to retain spilled materials and liquids. Top assembly is one piece, 1" Epoxy Resin, almond in color, with highly durable surface. Sink assembly has bi-level work surface to accommodate recommended maximum wheelchair height of 34", and 36" for stand up height. Stand up work surface slopes toward wheelchair work surface, which in turn, slopes toward integral sink. The molded integrated sink is sloped from front to back with overall depth not to exceed 6 1/2". Amolded integral ledge is located at rear of sink to accommodate services, and a removable one piece closure panel conceals sink's service piping. Unit has one hot and cold water mixing faucet with wrist blade handles. Faucet holes must be drilled at time of installation.

**4718 Wall Case Unit, Two Hinged Doors**

Overall: 31 3/8" h x 35 1/4" w x 12 1/4" d

Unit equipped with two adjustable shelves. Doors are equipped with roller catches.

**4790 Wall Case Unit, Two Hinged Glazed Doors**

Overall: 31 3/8" h x 35 1/4" w x 12 1/4" d

Unit equipped with two adjustable shelves. Doors are 13/16" x 3" solid oak frames glazed with 1/8" thick DSB glass. Both doors are equipped with roller catches.

**5688 Tall Case Unit Two Hinged Doors**

Overall: 84 3/8" h x 35 1/4" w x 22 1/2" d

Unit is equipped with one fixed center shelf, and four adjustable shelves. Right door is equipped with a latching chrome handle which operates with 1/4 turn, and a dummy handle on the left door. The right door has a three point latching system which engages tapered aluminum rods to pull the door snug when engaging plastic strike plates at the top and bottom of the case. The middle of the door is secured by a latch plate which latches behind the left door on cases with double doors.

**5866 Tall Case Unit Wardrobe & Storage**

Overall: 84 3/8" h x 35 1/4" w x 22 1/2" d

Unit is equipped with one fixed shelf across the top of the unit, and four adjustable shelves on the right side. Left side is equipped with a wardrobe hanger rod. Right door is equipped with a latching chrome handle which operates with 1/4 turn, and a dummy handle on the left door. The right door has a three point latching system which engages tapered aluminum rods to pull the door snug when engaging plastic strike plates at the top and bottom of the case. The middle of the door is secured by a latch plate which latches behind the left door on cases with double doors.

### 6077 Four Student Lab Table

Overall:	36 1/4" h x 64" w x 48" d
Base Cabinets (2):	35 1/4" h x 24" w x 16" d
Cupboards (2):	28 15/16" h x 10 7/8" w x 13 1/2" d
Drawers (8):	6" h x 8 7/8" w x 13" d
Sink (7" deep):	16" w x 8" d

Equipment: Two cold water gooseneck faucets; two double gas cocks; two deluxe AC receptables; one epoxy resin sink; one polypropylene sink outlet with disc strainer; two rod sockets; two adjustable shelves. Top material is 1" Epoxy Resin or Phenolic, specify.

TRAP & ROD ASSEMBLIES NOT INCLUDED;
